

Project fraternity on resuming construction at in-situ project

Tuesday, 05 May 2020

Manoj Gaur, MD, Gaur's Group and Chairman, Affordable Housing Committee, CREDAI (National)

We welcome the Government's decision to allow construction at in-situ projects albeit some safeguards. We too are looking to start to kick start construction activities at the earliest at some of our sites. But with various government allowing migration of labourers to home town, there may be some shortfall of labourers particularly in the pre-monsoon period. But we are hopeful most of them will come back once economic activities are allowed on a full-scale.
