Greater Noida: Even as Noida and Greater Noida are struggling to meet the delivery target of 50,000 homes to buyers by the end of December 2017, Yamuna Expressway Industrial Development Authority (YEIDA) on Thursday issued completion certificate to a Gaursons project, Park View located in Jaypee's Land for Development, pocket 3 in YEIDA area.

According to YEIDA CEO, Arun Vir Singh, the Authority is leaving no stone unturned in processing completions for projects in order to expedite handing over of homes to buyers. "On Thursday we have given completion certificates for 1,041 flats in the Gaurson's project," said Singh. "Five other builders with projects in YEIDA area consisting of 1,700 flats, 330 villas and 700 plots have also applied for completion. We are processing their applications and ensuring all criteria are in place before we issue completion certificates," the CEO said.

YEIDA has also started the process of registering flats in its affordable housing scheme launched in 2013. "The lease plan for 2,970 flats in our affordable housing scheme launched in 2013 has been issued. These home buyers will now be able to register their homes in Sector 22D. Another 806 plots allotted in the 2009 scheme have already been given possession while 4,500 flats will be ready by March 2018 in Sector 20," he added.
